INTRODUCTORY

This, the Directory of the City of Fort Wayne for 1912, records another definite step forward in the history of a great city. 46547

This volume presents an endless array of important and necessary information, facts and figures marshaled in convenient and logical order, any one of which can be instantly called to stand at "attention" and salute the reader.

It is not a "Who's Who."

It is a "Who's Here;" and "What's Here"—and it reflects accurately the life and growth of this community. Who looks for Romance between the two covers of the City Directory.

Few look, but those who do will find it. It's there.

This volume is a record of one year's achievement, progress and success—the most romantic of all records.

It records successful courtships and weddings, by pointing out the residence of new households.

It records the birth of new businesses, new business blocks, new homes. It tells of new interprises. It speaks the fact when one man's energy and ambition have carried him from a modest beginning to President or Manager of a large business enterprise or institution.

It shows the growth of established concerns, their removal to better and larger quarters.

It gives the names and addresses of 872 men and women, who one year ago were not citizens of Fort Wayne. It tells where these new citizens may be found at their work and where they live. A little city of people all in themselves.

It follows the city's physical growth, giving the names and locations of new streets as they gradually creep out into the open country on all sides.

It reflects, in fact, every impulse and activity of a city's people as surely as a mirror, for it is nothing more and nothing less, than an accurate picture of what they are doing, and what they have done.

This directory contains the names of 38,160 people, and based upon this, Fort Wayne stands to-day a city of 76,320 people. Experience has demonstrated that

there are two people to each name listed, a proportion which we believe to be conservative and fair.

The population of Fort Wayne as announced in the City Directory for 1911 was 75,448. Fort Wayne has thus gained in one year 872 inhabitants.

The names, addresses and all facts presented in this volume have been carefully gathered, arranged, compiled and classified.

Our one thought has been accuracy and completeness, for we appreciate the good will, confidence and support of our patrons.

Their convenience and satisfaction has been our aim. And for their assistance in furnishing information and other help, we extend our sincere thanks.

At our office, 401 Bass Block, we maintain a library containing current copies of the directories of all larger cities. Patrons of this company, are urged to make use of this Library, and to avail themselves of any other courtesy which is within our power.

SOME SUBSTANTIAL STATEMENTS.

"Fort Wayne," from which the name of the city is derived, was erected in 1794 by General Anthony Wayne at that point, where the St. Mary's and the St. Joseph's unite to form the Maumee river, which flows into Lake Erie at Toledo.

It had been an Indian trading post for a hundred years previous, its Indian name being "Kekionga."

It had been held in early times by the French, who built a fort for its protection a short distance west, on the St. Mary's river and later by the English, who constructed a fort on the St. Joseph's, a short distance north of the site chosen for "Fort Wayne."

Within its corporate limits it has nine miles of rivers —five of the St. Mary's, two of the St. Joseph's and two of the Maumee. All of these river banks within the city, are to be acquired by the city, and are to be parked and boulevarded.

Fort Wayne has never had "a boom," and it has never stopped growing. Its population in 1840 was 2,050; in 1850, 4,282; in 1860, 10,388; in 1870, 17,718; in 1880, 26,880; in 1890, 35,393; in 1900, 52,057; in 1910, 71,500; in 1911, 75,448; in 1912, 76,320.

It has four east and west trunk line railways—the Pittsburgh, Fort Wayne and Chicago; (Pennsylvania lines) the Wabash; the New York, Chicago and St. Louis; (Nickel Plate) and the Lake Shore and Michigan Southern. It has two north and south trunk lines—the Grand Rapids and Indiana, and the Lake Erie and Western. It is the western terminus of the Cincinnati, Hamilton and Dayton.

It has six lines of interurban railways, with others building and in contemplation. These railways have a direct connection with the great interurban systems of Ohio and Indiana.

Within a radius of about 200 miles Fort Wayne is about equidistant from her sister cities of Indianapolis, Toledo, Detroit, Cleveland, Chicago and Grand Rapids.

It has no slum district. It is a city of homes, the proportion of home owners to its population being greater than in any city of its class in the United States.

It is known as the "Summit City," as it sits upon the crest of the water shed, from whence the waters flow east to the St. Lawrence and west to the Mississippi.

It is on the line of the proposed deep water way known as the Toledo, Fort Wayne and Chicago Trunk Line Barge Canal, which will unite the waters of Lake Michigan and Lake Erie.

It has the best distributed system of parks of any city in the state, eleven in number, with five others now being acquired. When these are secured there will be a park within ten minutes' walk of the home of every citizen in Fort Wayne.

It has a commercial club with a membership of 500, to the members of which the city is indebted for the new Anthony hotel, costing for grounds, building and furnishings, over $500,000.00.

It has the finest county court house west of the Alle-

ghenies, designed by a Fort Wayne architect and built without a dollar of "graft" going into it.

It has four national banks with assets of $17,000,000.00; four trust companies with over $8,500,000.00 and four private banks.

It owns its own waterworks with an ample supply of pure, deep rock well water, the value of the plant being estimated at $2,000,000.00; the rates are the lowest in the State. There are one hundred and seventeen and three-tenths miles of pipe.

It owns its own electric lighting plant for both city and commercial purposes, valued at $350,000.00 and is already earning a net annual profit over operating expenses and renewals of $50,000.

It has fiftyfour and four-tenths miles of paved street, thirty-one and one-half miles being of asphalt.

It has the finest public market house in Indiana.

It has over fifty churches; three large public hospitals; three fine opera houses; nineteen large public school buildings, several with fine playgrounds attached, and many fine parochial schools; the handsomest Scottish Rite cathedral in the world; a beautiful Masonic Temple, and elegant country club, and a $100,000.00 Young Woman's Christian Association building now in course of construction.

It is one of the best lighted cities in the country, all of its business section being illuminated with five-light ornamental lamp posts, placed seventy-five feet apart on both sides of the street.

It has five daily newspapers, three of these of very wide circulation, covering all of northeastern Indiana and northwestern Ohio.

It has some of the largest manufacturing plants in the United States, among which are the Pennsylvania shops, which corporation pay out monthly in wages in Fort Wayne $300,000.00; the Fort Wayne Electric Works; the Bass Foundry and Machine Works; the Wayne Knitting Mills, the largest fullfashioned hosiery mill in the country, employing 3,000 people; the Packard Piano Company; the Western Gas Construction Company; the Bowser Oil Tank and Pump Company; the General Electric Lamp Factory; the Kerr Murray Manufacturing Company, and many others.

Postoffice receipts annually are $373,318.53 and the employes number 94.

¶ Roman writers tell us that "*all roads lead to Rome,*" and we tell you that in America all roads lead to a business center. The principal thoroughfares in business however, are:
1. INQUIRIES—the oldest of our inter-communicating systems.
2. FRIENDLY TIPS—an auxiliary. 3. DIRECTORIES—a direct route.
4. LISTS—Directories royal auxiliary. Telephone 1036.

¶ Roman writers tell us that "*all roads lead to Rome,*" and we tell you that in America all roads lead to a business center. The principal thoroughfares in business however, are:

1. INQUIRIES—the oldest of our inter-communicating systems.
2. FRIENDLY TIPS—an auxiliary. 3. DIRECTORIES—a direct route.
4. LISTS—Directories royal auxiliary. Telephone 1036.

¶ Roman writers tell us that "*all roads lead to Rome,*" and we tell you that in America all roads lead to a business center. The principal thoroughfares in business however, are:
1. INQUIRIES—the oldest of our inter-communicating systems.
2. FRIENDLY TIPS—an auxiliary. 3. DIRECTORIES—a direct route.
4. LISTS—Directories royal auxiliary. Telephone 1036.

¶ Roman writers tell us that "*all roads lead to Rome,*" and we tell you that in America all roads lead to a business center. The principal thoroughfares in business however, are:
1. INQUIRIES—the oldest of our inter-communicating systems.
2. FRIENDLY TIPS—an auxiliary. 3 DIRECTORIES—a direct route.

¶ Roman writers tell us that "*all roads lead to Rome,*" and we tell you that in America all roads lead to a business center. The principal thoroughfares in business however, are:
1. INQUIRIES—the oldest of our inter-communicating systems.
2. FRIENDLY TIPS—an auxiliary. 3. DIRECTORIES—a direct route.
4. LISTS—Directories royal auxiliary. Telephone 1036.
